FOOD FOR FRIENDS CELEBRATES 30 YEARS

Submitted by Candance Ashe

Rahway Food For Friends has been serving Greater Union County for 30 years. Our mission is to feed the hungry, homeless and needy families in our community.

Inspired by the late Dick Talbot, founder, Rahway Food For Friends continues to work with surrounding community churches in fulfilling its mission while "Feeding the Whole Person".

Rahway Food For Friends would like to thank the Community Food Bank for their recent grant contribution to help continue our efforts in fighting hunger. This project is made possible through the Community Food Bank of New Jersey's Network Investment Initiative, with lead funding from the New Jersey Pandemic Relief Fund and its partners.

We would like to thank the First Presbyterian Church who has been nothing short of a miracle to Rahway Food For Friends from the very beginning. The support and hard work of this congregation is very well the epitome of what love is and should stand for. Thank you to Dawn Mandela, Dana and Bill Marsh, Carlos and Irwin Altona, Joanne and Ted Padavano, Gail Anderson, Andy and JoAnn Roesch, Carol Ann Bregman, Helene Haithe, Ilanda Kerobo, Patick Weaver, Al and Robin Shipley, and Pastor Erin Cooke.

Rahway Food For Friends has had a humble beginning, though the struggles we faced were tough and challenging at times, the charity has maintained its mission with grace, hope and love for our community.

The beauty of helping others reaches far beyond the city of Rahway and extends well beyond the borders and into the hearts of caring people.

Rahway Food For Friends would like to thank:

Oasis Christian Center in Rahway for their service and donations of men's new suits for homeless, disabled veterans.

The entire team of One Kind Step for their ongoing service and support along with WBJL Radio.

The congregation of Ebenezer AME Church and Pastor Marti Robinson for their weekly food donations.

The Westfield, Fanwood and Clark communities for the recent food drive sponsored by Feeding the Frontline.

The Elizabeth Presbyterian Church and we thank you for your continued support through the years in fighting hunger.

The LINC program in Linden. The Reverend Peter De Franco, and the Outreach Committee for the recent diaper drive to assist with our single mothers diaper program.

Rahway Food For Friends continues to partner with the City of Rahway and Mayor Giacobbe to further assist those food insecure families and those families facing homelessness. We would like to thank each person who has volunteered, donated your time, food, clothing, toys, or made a monetary contribution which made a grand impact on so many families over the 30 years. Changing the lives of those in need as they face hunger and food insecurity would not be possible without the support of each of you.

(above) Raheem of Rahway Coalition is pictured with Nadine Burns, pantry manager.

We will celebrate our 30 years of service at the Rahway River Park on Friday, August 13, 2021 from 12 p.m. until 8 p.m. All are welcome.

To find out more information about our mission and current needs, please visit our website at rahwayfoodforfriendsnj.org or visit our headquarters located at Second Presbyterian Church, 1221 New Brunswick Avenue, Rahway, and take a tour.

SONS OF UNION VETERANS OF THE CIVIL WAR

Submitted by Christopher D Sands

The Sons of Union Veterans of the Civil War is a fraternal organization dedicated to preserving the history and legacy of those who fought and worked to save the Union. Hereditary membership is available to a male descendant, 14 years of age, who directly descends from a Soldier, Sailor, Marine or member of the Revenue Cutter Service between April 12, 1861 and April 9, 1865.

The General Phil Kearny Camp #20 meets four times a year at the Abraham Clark House in Roselle, NJ. The next scheduled Camp meetings are September 11, and November 13, 2021, all Saturdays at 1 p.m. We support over 20 high schools and 2 universities with the SUVCW ROTC Medal. Our current program is to place signs where Grand Army of the Republic (GAR) posts met in North Jersey.

For more information visit suvchw.org.

(above) Colonel Stephen Harlan is inducted into the General Phil Kearny Camp 320 membership. Chaplain James O'Halloran, Secretary Clark McCullough, and Commander Peter Lindsey conduct the induction.

RAHWAY VETERAN INDUCTED INTO 'IN MEMORY PROGRAM'

Ceremony in Washington, D.C. honors Vietnam Veterans who died after returning home

Anthony Genevrino, U.S. Marine Corps, Rahway, NJ (August 3, 1950 – June 2004) was one of nearly 400 Vietnam veterans, including nine from New Jersey, inducted into the Vietnam Veterans Memorial Fund's (VVMF) In Memory Program in 2021. The program honors Vietnam veterans whose lives were cut short as a result of their service after they returned home from Vietnam.

On October 16, 2021, VVMF will host the 2021 In Memory ceremony on the East Knoll of the Vietnam Veterans Memorial, where each 2021 honoree's name will be read aloud.

"For many Vietnam veterans, coming home from Vietnam was just the beginning of a whole new fight. Many never fully recovered, either physically or emotionally, from their experiences. As these veterans pass, it is our duty and solemn promise to welcome them home to the place that our nation has set aside to remember our Vietnam veterans," said Jim Knotts, president and CEO of VVMF.

The plaque that honors these veterans was dedicated as a part of the Vietnam Veterans Memorial site in 2004. It reads: In Memory of the men and women who served in the Vietnam War and later died as a result of their service. We honor and remember their sacrifice.

VVMF has created a personal remembrance page for each honoree online in the In Memory Honor Roll at vvmf.org/honor-roll. Their photos will also be displayed around the country when VVMF's mobile exhibit, The Wall That Heals, is on display in an honoree's home state.

The 2021 In Memory ceremony will be shown live on VVMF's Facebook page (<https://www.facebook.com/VietnamVeteransMemorialFund>) beginning at 10 a.m. ET on October 16, 2021. The In Memory program was created in 1993 and has since honored more than 5,100 veterans. For more information on the In Memory program or to apply to have your loved one honored in 2022, please visit: vvmf.org/inmemory.

POSTED ON PERSONAL REMEMBRANCE PAGE:

Anthony Genevrino August 3, 1950-June 7, 2004 Rahway, NJ Marine: Sgt. Title: Warehouse Chief (in Combat Zone) 1st Battalion, 5th Marine, 1st Marine Div. Decorations & Medals: National Defense Service Medal, Vietnam Service Medal, Vietnam Campaign Medal and Good Conduct Medal.

My brother, Anthony, grew up in his hometown of Rahway and graduated from Rahway High School in 1968. He enlisted in the Marines in January 1969. He was to be discharged in January 1971, but he had extended his enlistment until March 1971. After the service, he became a self-employed carpenter, and many times throughout his life, he used those talents to help others. He also helped others in the church he attended. He was a man of great faith in God. He loved the poem, "Footprints in the Sand". The poem reminded him that he wasn't alone in the world when life was challenging. Two years before his death, he returned to Vietnam. I believe he wanted to find some peace.

A year later, he was diagnosed with esophagus cancer and died a year later on June 7, 2004. After finding out about his illness, he told me that the only thing he wanted to live for was his family. Anthony is survived by his mother, Lucretia; brother, John; sister, Lucretia; daughter, Dayna; two grandchildren, Olivia and Layla; and a great grandchild, Lillian, which he never got to see. He is greatly missed by his family and friends.

ABOUT VIETNAM VETERANS MEMORIAL FUND

The Vietnam Veterans Memorial Fund (VVMF) is the nonprofit organization that founded the Vietnam Veterans Memorial (The Wall) in Washington, D.C. in 1982. VVMF's mission is to honor and preserve the legacy of service in America and educate all generations about the impact of the Vietnam War and era. Patriotic flags. hunting. fireworks
AND YES EVEN CICADAS

So now that you got your vaccination (you did right?) you will have the freedom to safely spend time and barbeque with friends and family. So start to enjoy the bright long days, summer breezes, hibiscus, and lots of bugs. Speaking of which remember to keep the grass trimmed and flowers watered for home buyers driving by.

So it's time to take a quick trip down the shore for clams, casino, and custard or run up to Maine for some lobster and New England clam chowder. Where you eat when you get there needs to be an important satisfying gastronomic decision. When it comes to buying your new home or selling your current home you also need to be sure it's an equally satisfying experience made with the best professional results.

I look forward to being that Professional in assisting in buying or selling residential homes, condos, townhouses, multi families to rentals, and strong success in commercial sales or rentals, to project property acquisitions.

So after you get your grill ready for the foot long hot dogs and s'mores and while cooking, think about creating a menu for your wish list for a new home or what needs to be done to list your home for a top price. Allow me to guide you to a tasty success and remember I promise we will have fun and no stress while we do it.

Everyone loves the great summer time, so get some rolled ice cream at Melao Creamery on Irving St., Rahway, SUPER YUM, or the awesome nachos platter at Beanas Para Seimpre Mexican on St. Georges, or Ice cold Stewart's Drive-In root beer. All great to watch the fireworks with on the fourth at Rahway Park. Be Safe! Be healthy! Be Happy!

VOLUNTEERS WANTED FOR MEDICAL CORPS

The New Jersey Medical Reserve Corps (MRC) – a network of community-based, locally organized units comprised of volunteers – is looking for reinforcements, particularly those with vaccination skills. MRC volunteers are especially vital during emergencies and disasters when paid public health and emergency response assets are overwhelmed. Healthcare professionals (including recently retired individuals) having vaccination skills are especially needed now that COVID-19 vaccines are available.

In addition to skilled vaccinators, individuals with all types of skill sets (for example, security, language translation/interpretation, education and outreach, warehouse operations, clerical, counseling, and more) are needed. If you are interested in volunteering with the MRC, visit njlmn.njlincs.net and click on “Register as an Existing or New MRC Volunteer!”

GREAT SUMMERS START YMCA

Great Summers Start at The Gateway Family YMCA, and the summer of 2021 is no different. The Gateway Family YMCA is planning for a summer of fun including Summer Day Camp in Rahway and Union, NJ as well as Y Summer programs including swimming lessons, group exercise and youth programs. Registration for Summer Day Camp and Y programs for the Summer of 2021 is available online at tgfymca.org.

"This has been a challenging year for all, and we are just beginning to understand the effects of social isolation on all ages in our community. Our Y is committed to continue to serve members with programs that foster community, personal growth and overall wellness, all while meeting the strictest safety guidelines," stated Krystal R. Canady, CEO, The Gateway Family YMCA.

The Gateway Family YMCA is offering Summer Day Camp July 5 – August 27 for children entering Pre-K Age 3 through 6th Grade. Summer Day Camp teaches essential leadership and social skills and helps kids build character and develop confidence and independence. At The Gateway Family YMCA Summer Day Camp, kids can develop new skills, build self-confidence, make new friendships and gain a sense of belonging – all while having tons of fun in an outdoor, active environment. From games and sports to arts and crafts to outdoor adventures to science and technology, a Y Summer Day Camp experience offers kids the chance to learn new things and enjoy new adventures.

In addition to Summer Day Camp, The Gateway Family YMCA offers YMCA Child Care, Swimming Lessons, Summer Swim Team, Group Exercise, Indoor, Outdoor and Virtual Programs, Youth Programs, Virtual WISE Services and family experiences including Basketball, Pickleball and Family Swimming, as well as traditional YMCA wellness, fitness centers, free weights and nutrition programs. In addition, The Gateway Family YMCA offers chronic disease management programs to the community, including Blood Pressure Self-Monitoring and Diabetes Empowerment Education programs.

The Gateway Family YMCA is a leading 501(c)(3) nonprofit committed to strengthening community by connecting all people to their potential, purpose and each other. With a focus on empowering young people, improving health and well-being, and inspiring action in and across the local community, the Y brings together people from different backgrounds, perspectives and generations, to ensure that all have access to the opportunities, relationships and resources necessary to learn, grow and thrive. The Y doesn't just strengthen bodies – it strengthens people, families and communities.

RELIEF FROM CHRONIC KNEE PAIN FDA Approved Treatment to Avoid Surgery

DON'T BLAME THE ARROW FOR MISSING THE TARGET

Just like tens of millions of other Americans, you were looking for relief from your chronic knee pain. You thought Viscosupplementation injections might be the answer, but the results were disappointing and painful. Don't assume the treatment wasn't right. That could very well be like blaming the arrow for its path to the target when the problem might be the archer. If you didn't get the pain relief you were hoping for, chances are your injection treatment was off target. Unlike blind injections or even ultrasound targeted treatments found elsewhere, **Northeast Spine & Wellness Center** uses diagnostic fluoroscopy to make sure the area that needs treated is the exact area where the injection goes. This is the most advanced method of delivering this pain relieving treatment with 95% accuracy to give you the results you're looking for. The use of Fluoroscopy guided injections sets **Northeast Spine & Wellness Center** apart. The end result is you living pain free from your chronic knee pain. You can avoid the lengthy and painful road of knee replacement surgery. You can avoid the endless trial and error assortment of potentially addictive prescription medications. This treatment, using fluoroscopy guided injections has seen a success rate of above 85% in those suffering from knee pain related to osteoarthritis, and that includes people with bone on bone involvement. You've suffered from chronic knee pain long enough. Call **Northeast Spine & Wellness Center** now for a RISK FREE consultation.

If Knee Surgery Sounds Scary, It Should

Have you have been told you are facing knee replacement surgery? Have you been told about all the downsides you could be facing? First and foremost, there are NO guarantees that knee replacement surgery will be the answer to your pain, but let's look further:

- Surgery is costly, regardless of the percentage of services covered by insurance.
- Surgery requires lost time from work and typically requires a regimen of rehabilitation and medications.
- With surgery, there is always a risk for unwelcomed complications. And you could be back to where you started, or worse.
- Medications will be required for relief from surgery and you have been down that road before. Addictions to these pain medications can cause potential side effects, something you do not want to experience.
- Rehabilitation can take years.

Consider This Alternative To Surgery

Northeast Spine & Wellness Center offers you a real opportunity and a painless way to say goodbye to your knee pain without any surgery. Here are just a few of the important benefits you should consider?

- Diagnostic fluoroscopy accurately targets the pain, unlike blind injections.
- Guided fluoroscopic injections are virtually pain free, unlike blind injections.
- No lost time from work or family.
- No expensive or time consuming rehabilitation.
- No potentially addictive prescription medications.
- Recovery time is almost instant, not months or years.

How Does This New Treatment Work?

Relief begins almost as fast as it takes to pronounce the treatment. It's called Viscosupplementation Therapy. To begin with, it starts with **Northeast Spine & Wellness Center** investing in the use of diagnostic fluoroscopy. This enables them to target the exact location of your knee pain with pinpoint accuracy. What follows is a simple injection that causes little to no pain, especially when compared to what you may be living with daily. That explains what you will see on the surface of this revolutionary treatment. What's taking place below the surface is how and where the natural healing process takes place. The injection of a Hyaluronic acid called Hyalgan. This gel-like substance was approved by the FDA in 1996. Hyalgan is a natural substance that mimics the synovial fluid that is already produced by your body in your joints. Osteoarthritis sufferers in particular see a reduction in this much needed synovial fluid in their knee joints. Without that cushioning layer of protection, the cartilage in your knee can begin to wear away leading to the rubbing of bone on bone. Through Viscosupplementation Therapy, this natural substance immediately goes to work reducing the swelling and inflammation in the joint and adding a coating layer of protection. Think about Dorothy taking the oil can to The Tin Man. You'll begin to feel that same kind of relief and quite possibly feel like you're ready for a dance down the yellow brick road to recovery yourself. And with a success rate of over 85% in alleviating pain associated with osteoarthritis, it's easy to see why this treatment is so readily covered by Medicare and by most major insurance providers. Diagnostic fluoroscopy to target the pain, Viscosupplementation Therapy to relieve the pain. Simple, fast and no surgery!

Do you Suffer from any of these Symptoms?

There are a number of reasons why you developed Osteoarthritis pain. It can develop with age or because of heredity. It could be from repetitive stress from a job or some glory days in athletics. Of course your concern is with the symptoms you face daily and how to make them end, hopefully without surgery or the use of potentially addictive medications. **Northeast Spine & Wellness Center** understands the symptoms you have been living with and can help. If you have any of the symptoms below, please call us today. Relief is a phone call away.

- **Pain** - Whether it's a sharp aching or maybe a burning sensation, the pain can range from irritating to debilitating.
- **Swelling** - This can cause tenderness and soreness to the entire knee area, making walking or going up and down stairs painful, getting in and out of bed or bathtubs difficult and dangerous just name a few activities affected by swelling.
- **Stiffness** - Getting up out of bed or after sitting for a period of time gets more and more difficult. This loss of mobility can be more than a hindrance. It can be dangerous if you need to move quickly.
- **Loss of muscle strength** - This can lead to balance issues and the strong possibility of falling.
- **Joint deformity** - Not just unsightly, but painful as well.
- **Creaking Joints** - Can be painful and a sign of more discomfort to come.
- **Sleepless nights** - Losing sleep over your suffering is not just irritating, but potentially dangerous because of so many other health concerns that can be affected by loss of sound sleep.

Let Me Show You Targeted Relief From Your Knee Pain

Every day, I see patients suffering from knee pain due to arthritis, osteoarthritis, sports injuries or other conditions. Many have been told that they are in need of knee replacement surgery. Other patients say they have been prescribed various prescription medications to deal with the pain.

Something else I see almost every day, are patients that have tried viscosupplementation knee injections elsewhere and found it to be a painful and ineffective experience because the injections were not administered using fluoroscopic guidance. Instead of using the incredibly accurate diagnostic fluoroscopy we use at **Northeast Spine & Wellness Center** these patients experienced a blind injection technique, which can be as inaccurate as playing pin the tail on the donkey.

Once I am able to explain to my patients about the pin point accuracy of using diagnostic fluoroscopy and the amazing results viscosupplementation can provide, they are thrilled to get started. They are even more thrilled when they feel the relief. Please contact **Northeast Spine & Wellness Center** today to schedule your RISK FREE consultation.

PROTECT ME WITH 3+ POSTER CONTEST

Submitted by Linda Lampert

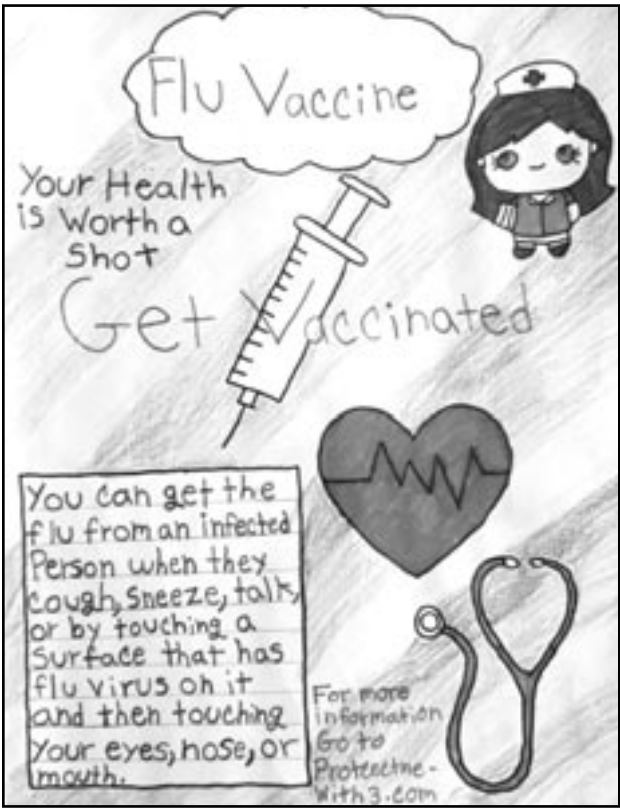

5th-grade students in Mrs. Venisha Jordan's science classes at Franklin Elementary School in Rahway participated in the Protect Me With 3+ poster contest. This statewide contest is held annually in collaboration with The Partnership for Maternal and Child Health of Northern New Jersey and the New Jersey Department of Health. Targeting youth in middle and high schools, the contest aims to raise awareness about the importance of adolescent immunizations among pre-teens, teenagers, and parents, and increase vaccination rates for several important vaccines, such as Tetanus, Diphtheria, Pertussis (Tdap),

Human Papillomavirus (HPV), Meningococcal Conjugate, and Flu.

In order to prepare for the contest, Mrs. Barbara Maher, the school's nurse, taught the kids about vaccinations and the importance of getting their 6th-grade vaccinations. After the lesson, students created posters and submitted them.

Franklin School is proud of Nicole Garcia and Jason Afum. Nicole's poster was chosen as the 2nd place winner and Jason's was chosen as a finalist.

All of the winners can be seen here: protectmewith3.com/winners/

COMMEMORATIVE TREES – LIVING REMINDERS OF LOCAL, NATIONAL HISTORY

Submitted by Al Shipley, City Historian and Rahway Library Research Consultant

From the earliest of times, trees have been used as life-affirming symbols and have represented any number of admirable human qualities. In the works of mythology, legends, folklore, religion, fiction, and poetry, trees have symbolized attributes such as strength, knowledge, wisdom, persistence, beauty, and longevity. Rahway's first use of a tree as a symbol dates back to the time of the American Revolution when citizens assembled around a stately tree to demonstrate their resistance to British rule. In later years, the city would plant trees to honor and remember soldiers lost in war, to honor George Washington, and to celebrate the 150th anniversary of the signing of the United States Constitution.

In the years leading up to the American Revolution, the rebellious leaders of Boston held mass gatherings to plan their protests against the unfair policies of the British. Their meeting place was beneath the branches of a large, old elm tree which came to be called the "Liberty Tree" by those committed to the cause of independence. Soon, word of the gathering spot spread through the colonies and many towns selected a "Liberty Tree" of their own where they too could show defiance to the Crown. Rahway's "Liberty Tree" was located near the south-east corner of Milton Avenue and St. Georges Avenue. The tree was lost over time and replaced by a tall "Liberty Pole" that marked the spot where it had stood. The pole remained in place until March 12, 1888 when the fierce winds of the infamous Blizzard of 88 snapped it in half.

Following World War I, eleven red oaks were planted at Riverside Park (Veterans Field) as a way to honor and remember the eleven Rahway boys who made the Supreme Sacrifice during the war. The trees were placed in a row parallel to the first base line of the baseball diamond extending from the diamond to the driveway entrance at the top of the hill. Unfortunately, most have been lost due mainly to the flooding conditions that have plagued the field over the past one-hundred years.

After the Union County Park system was created in 1921, the parklands of the Rahway County Park became the perfect venue for commemorative tree planting programs. The park had been built on what had been farmland and over-grown fields and was devoid of many trees. Even after the Olmsted Brothers, the celebrated landscape architects worked their magic and created a beautiful 129 acre park, there was still ample room for new plantings. The extensive acreage was also ideally suited to accommodate

(above) Sugar maples forming "Constitution Grove" provide plenty of shade for two picnic pavilions.

(above) The majestic "George Washington Oak" stands on the knoll over looking the green expanse of the park at the entrance from St. Georges Avenue.

large gatherings that would likely attend dedication ceremonies.

On Monday, February 22, 1932, a ceremony was held in the Rahway County Park to dedicate a sturdy oak to the memory of George Washington on the occasion of the 200th anniversary of his birth. Over 1,000 citizens witnessed Rahway's tribute to Washington which included a parade, musical selections, and speeches. One of the orators remarked, "Washington was a lover of trees. It is appropriate that on the 200th anniversary of his birth a major part of the national program should be the planting of millions of trees across the country." The oak, which was said to "exemplify the character of our first president," was planted on the knoll overlooking the bowling green where it stands to this day.

In observance of the Sesquicentennial (150 year anniversary) of the signing of the United States Constitution, a tree planting dedication program was held at the Rahway County Park on October 12, 1937. Thirteen sugar maples, one for each of the thirteen original colonies, were planted on the knoll east of the swimming pool and south of the baseball diamond. Sugar maples traditionally are symbols of balance, promise, and longevity. The grove was to be known as

"Constitution Grove" and it was proposed that a metal plaque would be set to mark the area as a place of significance. Today, the marker, if one was actually ever placed there, no longer exists. Most of the sugar maples, however, still stand.

On Memorial Day, May 30, 1947, a Memorial Tree Grove was established in the Rahway County Park in honor of the fifty-eight soldiers from Rahway who lost their lives during World War II. Several thousand people, young and old, attended the program which was reported to be "the first and most suitable method to honor the heroes." The Grove was "rediscovered" in 2015 when a map was found which gave the location of each tree (A full account of finding the map appeared in the May, 2015 issue of "Our Town"). In the past six years, county officials have redesigned and beautified the memorial stone marker that was also dedicated during the ceremony and have most recently marked the trees with QR codes that contain information on the individual soldiers.

With the summer months upon us and the lifting of COVID-19 restrictions, it's a perfect time to visit the park. This time, while walking or jogging, take notice of the history that has been memorialized and preserved in the majestic form of natural monuments.

SPOTTED LANTERNFLY

New Jersey is asking for our help to stop, control and destroy our newest invasive insect, the Spotted Lanternfly. Although not yet sighted in Union County, we as gardeners are very likely to spot and identify it early.

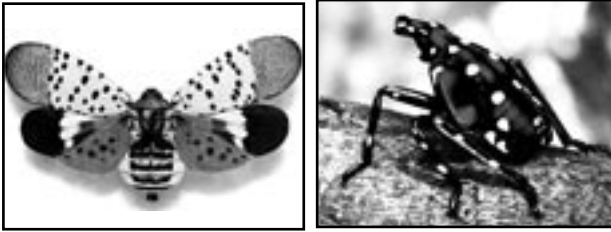

This insect was accidentally introduced from Asia into Pennsylvania and was confirmed in September 2014. At first it was only found in Bucks County, however, today it has spread throughout Pennsylvania and to neighboring states, including New Jersey.

Most people mistake this insect as a moth but it's actually the Asian plant hopper known as the spotted lanternfly (SLF). In the USA, spotted lanternfly is an invasive species that could be very devastating to some New Jersey crops and hardwood trees.

During feeding, SLF excretes significant amounts of honey dew (or sugar water). Honey dew deposits provide a food source for a sooty mold fungus that can grow on plant surfaces and fruit leading to reduced photosynthesis and plant vigor. This lack of photosynthesis over time will lead to the slow death of many trees. Adults feed in large congregations and highly noticeable. Although there are no numbers or estimates on the economic impact of SLF, we are concerned about the impacts to our agricultural and homeowner communities.

New Jersey populations were first detected in 2018 are currently primarily distributed along the state's border with Pennsylvania. In response, the NJ Department of Agriculture has issued an eight-county quarantine. People and businesses travelling in and out of these counties (Burlington, Camden, Gloucester, Hunterdon, Mercer, Salem, Somerset, and Warren) should inspect vehicles for hitchhiking SLF and inspect outdoor items such as packing bins, firewood, paving stones, lawn equipment, etc. for egg masses. Quarantine compliance will reduce the spread of SLF to new areas and counties thereby protect New Jersey resources including forests and agriculture.

Spotted lanternfly is distinctive from most other native insects which greatly aids in identification. In the spring, around mid-May, young juveniles hatch from the eggs and are black with white spots. As they grow, nymphs become red and black with white spots. The presence of the "polka dots" on the nymphs is

(above) The polkadots on both the nymphs and brightly colored winged adults make SLF easy to identify from our native insects.

distinct from most other insect species present in New Jersey.

Nymphs mature into adults in late July-August and are quite colorful with a black head, grayish black spotted forewings, and reddish black spotted hind wings. They are approximately 1" in length and a 1/2" in width and are present until frost. Adults feed in large congregations from August – October and are easily recognizable. Because they spend at least one month as adults before laying eggs, this could be a critical time for management. Mating and egg laying is delayed and egg laying does not occur until October. Egg masses are laid on smooth surfaces and appear like a patch of mud. They spend the winter in this stage and thus are very likely to be accidentally transported to a new location.

The spotted lanternfly can feed on more than 70 plant species including cultivated and wild grape, fruit trees, and hardwood trees common in woodlots and as landscape plantings. As with all plant hoppers, SLF has sucking mouthparts that it inserts into plant tissues to remove the fluids it needs to survive.

SLF adults and nymphs are phloem feeders that feed in large congregations on woody tissue. Feeding primarily occurs on the trunk and limbs of plants, not on the fruit or leaf tissues although young nymphs may feed on the leaves, particularly along the leaf veins. Feeding and abundance on different hosts switches throughout the growing season, likely tied with sugar flow in the trees.

One tree that hosts large numbers of SLF is *Ailanthus altissima* (Tree of Heaven), which is abundant in New Jersey. Tree of Heaven typically grows in clumps in sunny areas along highways or disturbed habitats such as the edges of crop fields, open spaces, or parks. Other key tree hosts include black walnut, red maple, river birch, willow, and agricultural crops such as grapes, apples, and peaches.

When looking for SLF, survey along the perimeters of fields and on Tree of Heaven, black

keanegardener.blogspot.com

walnut, red maple, willow, river birch, and wild grapevines at the edges of wood lines. Multiple egg masses can also be found on trellis posts within a vineyard. Insecticides are effective but due to the high mobility of this pest, in highly infested areas, vines should be monitored closely for the arrival of new bugs.

In Pennsylvania, adults and nymphs have caused economic injury to cultivated grapes in commercial vineyards. Populations are increasing in NJ vineyards each year as well. Economic estimates of injury are unavailable but some Pennsylvania growers report direct vine losses due to reduction in cold hardiness and plant health. Populations and injury are higher along vineyard edges and in New Jersey vineyards we are seeing populations of adult moving into the vineyard in September and October to feed.

SLF is very susceptible to multiple insecticides. During the fall when adults are very abundant, products with higher residual activity may be required. Care needs to be taken if using soil drench insecticides on landscape trees that are important pollen and nectar sources for foraging bees in the spring as the insecticide may still be present in harmful levels.

There are two species of natural occurring fungi that can attack SLF, *Beauveria bassiana* and *Batkoa major*. A few beneficial insects have also been observed attacking SLF, primarily in the egg stage. The impact these biological organisms will have on SLF is unknown and until that time insecticide management and removal of egg masses are the primary lines of defense.

Information in this article is from Rutgers Cooperative Extension.

Happy summer everyone
