# Local Sports Performance Program Forced to Shut Down Registration

The Fall Grit Athletes Sports Performance Program is now shut down. The Berkeley Heights Based Athlete Performance has no more available spots for their fall program due to high demand from local parents looking for their kids to get an edge. They opted to shut down registration before taking on more kids into the program, even though there were people on the waiting list.

The bright spot is they have begun early registration for their highly anticipated winter program. The winter program has always been the most popular and is also highly likely to be sold out before it even starts. Grit Athlete performance announces the early enrollment of their winter athlete performance training program.

This program is for your child if: They

want to get better at sports but struggle because of lack of speed, strength or stamina. They eat more junk food than healthy food and you need another voice to help them understand how important a healthy diet is during these developmental years. They need to improve their confidence and you want them to start to get better at recovering from their mistakes. They're doing pretty good right now but want to take their performance in their sport to a higher level.

Here's what parents can expect to happen: They will get stronger which means when they show up to their sport they'll be able to perform better than ever. They will run faster and jump higher so they can show up to their next season and people will start asking what

the heck have they been doing. They'll become more coordinated and improve agility which means they'll pick up new skills their coaches teach them faster. Your children will start to eat better because we'll be educating them daily on what's good and what they should avoid...don't be surprised if they start asking you to buy more vegetables. Confidence will skyrocket. When kids get stronger, faster and more fit... their confidence will rise... so will their self-esteem which means their performance in every aspect of life will get better.

Their mindset will improve. We're going equip your child with very specific mindset skills that'll help them learn how to transform how they think about mistakes and failures.

## HAPPY PARENTS TALKING ABOUT THE PHYSICAL AND MENTAL TRANSFORMATION OF THEIR KIDS...

- "When my son started Grit he was quiet, shy, and had some difficulty with movements...Now he is confident in himself, has become more vocal, and is mastering the exercise he struggled with in the past."

- Jen O'Brien, Grit Athlete Parent

- "My son is more disciplined and confident in himself"

- Steve Hughes, Grit Athlete Parent

- "I have watched my children become more confident and vocal."

- Christine Stramandinoli, Grit Athlete Parent

- "His confidence has shot up in the last few months...and has carried forward to the way he approaches other activities like sports and schoolwork. My son is now making his bed daily and exercising every day."

- Catherine Solfaro, Grit Athlete Parent

I have been at Spring Grove for a few weeks now, they have exceptional service and excellent staff. All the nurses have been professional and attentive to all my needs. I never thought a rehab center can have such a beautiful layout and well put together. The newly renovated room I have stayed in, is up to date and extremely clean. The therapy staff have gone above my expectations with their expertise and getting me to where I am today. Alyssa the social worker has gone above and beyond with all her assignments.

Thank you Spring Grove.

The nursing staff and administration is professional, patient, attentive and understanding. The facilities are very clean and well maintained. My parents room is always clean and tidy. Although it was a difficult decision to make relocating my folks from a home environment to a senior living facility, Spring Grove made my decision easy.

Thank God for them!

## US SPACE FORCE: GUARDIANS OF THE HIGH FRONTIER

### *Civil Air Patrol Cadet Program (NJ-102)*

As we explore new horizons, the United States expands beyond what is imaginable. With the creation of the US Space Force, the country truly embodies the notion of “reaching for the stars”! On June 29, 2021, Captain “Bud” Jackson Composite Squadron (NJ-102) of the Civil Air Patrol (CAP), an Auxiliary of the United States Air Force, had special guest speakers from the US Space Force - Major Jose Almanzar and Captain Ronald Nguyen. In a virtual meeting of over 110 participants, including visitors from other CAP squadrons, attended and the speakers shared the goal and purpose of this new branch of the military, talked about their jobs, gave advice to the cadets considering the path and much more. There was time for a Q&A session, where the speakers provided valuable information towards a wide range of cadet/senior member questions. Cadets took away extensive information to inspire them about this new exciting path of space research and operations.

Headquartered at the Pentagon, the US Space Force is an independent branch of the military that was carved out of the Air Force in December 2019. With their Command motto as “Guardians of the High Frontier”, the US Space Force is considered a critical asset, impacting everyday life. Although it is currently the smallest of the US armed services, the Space Force is responsible for operating and defending military satellites and ground stations and supports communication and navigation on Earth. It provides a much needed position of strength, especially technology-wise, for protecting US interests in space or going on offense, if needed, in the future. Civilian life cannot survive without our space capabilities. Our military based missions are now largely supported by space operations. Additionally, as space tourism is about to lift off in the coming years, the US will have a growing space community.

As an empowerment message to the young cadets, Maj Almanzar and Capt Nguyen talked about the Space Force’s need for bold and diverse leaders with new ideas. They stressed the importance of being exposed to STEM (Science, Technology, Engineering, and Math) experiences and education early on - “Always take advantage of opportunities presented to you and explore the growing areas of the Space Force. The sky is not the limit so it is your time to soar!”

The Civil Air Patrol (CAP) Cadet Program is open to all Middle School and High School students from ages 12 to 18. For more information about C.A.P., please contact the NJ-102 Squadron Commander, Captain Jose Vergara, at [jose.vergara@njwg.cap.gov](mailto:jose.vergara@njwg.cap.gov), or the NJ-102 Squadron Recruiting Officer, 1st Lt Josline Pinto, at [josline.pinto@njwg.cap.gov](mailto:josline.pinto@njwg.cap.gov). # PUMPKIN PATCH HELPS FIGHT HUNGER

THE CHATHAMS • Page 7 • October 2021

For its 15th year, the Presbyterian Church of Chatham Township (PCCT) will raise funds to benefit two local non-profit organizations focused on tackling hunger and need. While the Pumpkin Patch fundraiser was virtual in 2020 due to pandemic concerns, this year the church will once again fill its front lawn on Southern Boulevard with colorful pumpkins and gourds to sell to the public.

“This all-volunteer effort is dear to our hearts and central to our mission,” said the Rev. Dr. Ellen C. Clémot, Senior Pastor of PCCT. “Each year we donate 100 percent of the proceeds as part of our long-standing commitment to provide food and hope to those who are most vulnerable among us. We invite the community to join us by emptying the patch and filling plates for our neighbors in need.”

The Pumpkin Patch will begin Monday, October 11, and continue through the end of the month. The hours are: Monday – Friday, 2 – 6 p.m.; Saturdays – 10 a.m. to 6 p.m.; and Sundays – 11 a.m. to 6 p.m.

All proceeds will go to two local non-profit organizations, and be divided equally between them:

nourish.NJ in Morristown (formerly known as The Community Soup Kitchen and Outreach Center) creates lasting solutions to the problems of hunger, homelessness and poverty. It offers food, housing, work readiness, medical, social and educational services 365 days a year, free of charge, no questions asked. In 2020 it distributed

750,000 pounds of food.

The Community FoodBank of New Jersey in Hillside, a member of Feeding America®, has been delivering food, help and hope across the state for more than 45 years. Last year it provided nutritious food for over 85 million meals through its network of over 800 community partners.

According to the Community FoodBank, in New Jersey 8.7 percent of residents were food insecure before Covid-19, a figure projected to rise to 13.5 percent because of COVID-19. For children in the state, the figures are 11.3 percent and 19.7 percent.

The pumpkins and gourds for the patch are obtained through Pumpkin Patch Fundraisers, a non-profit organization that works cooperatively with the Navajo Nation in New Mexico to grow and deliver the pumpkins. This provides income for more than 700 Native Americans in a region with an unemployment rate of more than 40 percent.

## Michelangelo and Bernini: The Design and Decoration of the New St. Peter's Basilica, Part I and Part II

Part I: Tuesday, October 19 from 1 to 2 p.m.

Part 2: Tuesday, October 26 from 1 to 2 p.m.

Margaret Kuntz, Professor of Art History and Chair of the Art History Department at Drew University, will present two lectures on St. Peter's Basilica. In the first session, she will discuss the inter-relationship of the design and decoration of the new St. Peter's Basilica from its inception under Pope Julius II through its completion under Pope Paul V. Here we will discover why the design was modified and built as a basilica plan rather than the centralized plan designed by Michelangelo and dictated by Pope Paul III Farnese. We will also learn how the design change at the beginning of the 17th century impacted the construction process.

In the second lecture, Professor Kuntz will discuss the decoration of St. Peter's Basilica. Now at the final completion of construction, we

will look at the first decorations for the interior and how they reflected the artistic goals of Pope

Urban VII Barberini. In addition, we will discover the role Gian Lorenzo Bernini played as lead architect and artistic director of the interior decorations, the tangible manifestation of Urban's legacy. It is requested that you register with the library to attend. You may sign up online or call the library at 973-635-0603. There will be a fee of \$10 for each lecture to attend. If you are unable to pay the fee, please send an email to [events@chathamlibrary.org](mailto:events@chathamlibrary.org) and the fee will be waived.

from 11 a.m. to 12:39 p.m.

Professor Kimberly Rhodes of Drew University will present a course studying the major figures associated with Abstract Impressionism and Color Field painting, two internationally significant postwar American art movements that challenged audiences with dazzling new approaches to painting and solidified New York City's position as the center of the art world. Each session will be devoted to an individual artist (Willem de Kooning, Jackson Pollock, Lee Krasner, Mark Rothko, and Helen Frankenthaler) in order to explore, in depth, their creative, professional, and personal lives. We will also look at the milieu in which these artists were making work to understand and influence New York City itself on the artists and their paintings. It is requested that you register with the library to attend. You may sign up online or call the library at 973-635-0603. There will be a fee of \$10 for each class. If you are unable to pay the fee, please send an email to [events@chathamlibrary.org](mailto:events@chathamlibrary.org) and the fee will be waived.
