ST. THERESA SCHOOL CELEBRATES CATHOLIC SCHOOLS WEEK

Catholic Schools Week is a longstanding tradition celebrating Catholic education in the United States. Since its creation in 1974, it has been honored as the last Sunday in January and extends for the whole week. This year the theme is Catholic Schools: Faith, Excellence, Service.

As a Salesian school, St. Theresa School embraces Don Bosco's motto: Run, jump, play, but do not sin. Students from various grade levels spoke at the Sunday masses to share their love of St. Theresa School.

The students embraced their Catholic education for the entirety of Catholic Schools Week. The whole school kicked off the week with a Mass. A popular and beloved tradition at St. Theresa's is Bosco Bingo. Every year, on the feast of Saint Don Bosco, the entire school participates in a game of bingo. With this fun activity, no one who attends St. Theresa will ever forget the feast day of our beloved saint. It is a reminder of how fortunate we are to be a part of a Salesian school and makes attending St. Theresa's truly special.

The fun continued with more activities. On Tuesday, Get Up and Dance Day, we put on our dancing shoes and danced the day away—in between learning, of course. On Wednesday, students showed their support for our country by sporting red, white, and blue. Middle School Students practiced their knowledge of the school's history with a fun-filled Kahoot. The early childhood students had a special visitor, a remarkable book

reading with an author. Thursday, students practiced their call to service by bringing new hats, scarves, and gloves for a local charity. Students and staff got a little "crazy" with crazy socks, hair, and hats day! The celebration concluded with a pajama, pretzel, and movie day for all to enjoy.

The fun celebrates our Salesian spirit. There is no end to the staff's activities here at Saint Theresa School. The students constantly participate in exciting and educational surprises that make learning fun. It turns a typical day into one you'll remember for years to come.

RELIEF FROM CHRONIC KNEE PAIN

FDA Approved Treatment to Avoid Surgery

DON'T BLAME THE ARROW FOR MISSING THE TARGET

Just like tens of millions of other Americans, you were looking for relief from your chronic knee pain. You thought Viscosupplementation injections might be the answer, but the results were disappointing and painful. Don't assume the treatment wasn't right. That could very well be like blaming the arrow for its path to the target when the problem might be the archer. If you didn't get the pain relief you were hoping for, chances are your injection treatment was off target. Unlike blind injections or even ultrasound targeted treatments found elsewhere, **Northeast Spine & Wellness Center** uses diagnostic fluoroscopy to make sure the area that needs treated is the exact area where the injection goes. This is the most advanced method of delivering this pain relieving treatment with 95% accuracy to give you the results you're looking for. The use of Fluoroscopy guided injections sets **Northeast Spine & Wellness Center** apart. The end result is you living pain free from your chronic knee pain. You can avoid the lengthy and painful road of knee replacement surgery. You can avoid the endless trial and error assortment of potentially addictive prescription medications. This treatment, using fluoroscopy guided injections has seen a success rate of above 85% in those suffering from knee pain related to osteoarthritis, and that includes people with bone on bone involvement. You've suffered from chronic knee pain long enough. Call **Northeast Spine & Wellness Center** now for a RISK FREE consultation.

If Knee Surgery Sounds Scary, It Should

Have you have been told you are facing knee replacement surgery? Have you been told about all the downsides you could be facing? First and foremost, there are NO guarantees that knee replacement surgery will be the answer to your pain, but let's look further:

- Surgery is costly, regardless of the percentage of services covered by insurance.
- Surgery requires lost time from work and typically requires a regimen of rehabilitation and medications.
- With surgery, there is always a risk for unwelcomed complications. And you could be back to where you started, or worse.
- Medications will be required for relief from surgery and you have been down that road before. Addictions to these pain medications can cause potential side effects, something you do not want to experience.
- Rehabilitation can take years.

Consider This Alternative To Surgery

Northeast Spine & Wellness Center offers you a real opportunity and a painless way to say goodbye to your knee pain without any surgery. Here are just a few of the important benefits you should consider?

- Diagnostic fluoroscopy accurately targets the pain, unlike blind injections.
- Guided fluoroscopic injections are virtually pain free, unlike blind injections.
- No lost time from work or family.
- No expensive or time consuming rehabilitation.
- No potentially addictive prescription medications.
- Recovery time is almost instant, not months or years.

How Does This New Treatment Work?

Relief begins almost as fast as it takes to pronounce the treatment. It's called Viscosupplementation Therapy. To begin with, it starts with **Northeast Spine & Wellness Center** investing in the use of diagnostic fluoroscopy. This enables them to target the exact location of your knee pain with pinpoint accuracy. What follows is a simple injection that causes little to no pain, especially when compared to what you may be living with daily. That explains what you will see on the surface of this revolutionary treatment. What's taking place below the surface is how and where the natural healing process takes place. The injection of a Hyaluronic acid called Hyalgan. This gel-like substance was approved by the FDA in 1996. Hyalgan is a natural substance that mimics the synovial fluid that is already produced by your body in your joints. Osteoarthritis sufferers in particular see a reduction in this much needed synovial fluid in their knee joints. Without that cushioning layer of protection, the cartilage in your knee can begin to wear away leading to the rubbing of bone on bone. Through Viscosupplementation Therapy, this natural substance immediately goes to work reducing the swelling and inflammation in the joint and adding a coating layer of protection. Think about Dorothy taking the oil can to The Tin Man. You'll begin to feel that same kind of relief and quite possibly feel like you're ready for a dance down the yellow brick road to recovery yourself. And with a success rate of over 85% in alleviating pain associated with osteoarthritis, it's easy to see why this treatment is so readily covered by Medicare and by most major insurance providers. Diagnostic fluoroscopy to target the pain. Viscosupplementation Therapy to relieve the pain. Simple, fast and no surgery!

Do you Suffer from any of these Symptoms?

There are a number of reasons why you developed Osteoarthritis pain. It can develop with age or because of heredity. It could be from repetitive stress from a job or some glory days in athletics. Of course your concern is with the symptoms you face daily and how to make them end, hopefully without surgery or the use of potentially addictive medications. **Northeast Spine & Wellness Center** understands the symptoms you have been living with and can help. If you have any of the symptoms below, please call us today. Relief is a phone call away.

- **Pain** - Whether it's a sharp aching or maybe a burning sensation, the pain can range from irritating to debilitating.
- **Swelling** - This can cause tenderness and soreness to the entire knee area, making walking or going up and down stairs painful, getting in and out of bed or bathtubs difficult and dangerous just name a few activities affected by swelling.
- **Stiffness** - Getting up out of bed or after sitting for a period of time gets more and more difficult. This loss of mobility can be more than a hindrance. It can be dangerous if you need to move quickly.
- **Loss of muscle strength** - This can lead to balance issues and the strong possibility of falling.
- **Joint deformity** - Not just unsightly, but painful as well.
- **Creaking Joints** - Can be painful and a sign of more discomfort to come.
- **Sleepless nights** - Losing sleep over your suffering is not just irritating, but potentially dangerous because of so many other health concerns that can be affected by loss of sound sleep.

Let Me Show You Targeted Relief From Your Knee Pain

Every day, I see patients suffering from knee pain due to arthritis, osteoarthritis, sports injuries or other conditions. Many have been told that they are in need of knee replacement surgery. Other patients say they have been prescribed various prescription medications to deal with the pain.

Something else I see almost every day, are patients that have tried viscosupplementation knee injections elsewhere and found it to be a painful and ineffective experience because the injections were not administered using fluoroscopic guidance. Instead of using the incredibly accurate diagnostic fluoroscopy we use at **Northeast Spine & Wellness Center** these patients experienced a blind injection technique, which can be as inaccurate as playing pin the tail on the donkey.

Once I am able to explain to my patients about the pin point accuracy of using diagnostic fluoroscopy and the amazing results viscosupplementation can provide, they are thrilled to get started. They are even more thrilled when they feel the relief. Please contact **Northeast Spine & Wellness Center** today to schedule your RISK FREE consultation.

WHAT, WHERE, AND WHEN IN OLD KENILWORTH:

VIRGINIA ALBERTS – A WOMAN OF GREAT KINDNESS

With March as Women in History Month and February as Black History Month, the story of Virginia Alberts takes on special significance. She was born in Virginia as Virginia Jones on June 15, 1868. Widowed twice, she was a woman of great kindness.

Virginia Alberts came to town from the South with her husband John and children in the 1920s. They first lived on N. 8th St. near Washington Ave. Before 1950 she was widowed and moved to a very small house at the far end of N. 9th St. near the end of the playground that is now located there. She had little money but scraped by while at the same time she helped others.

The family of Ernest and Iola Bailey lived across the street at 305 N. 9th St. Their sons, Howard, 1933-2016, and Wray, born 1936, recalled Virginia Alberts in a 2005 interview.

Wray said, "Mrs. Alberts kept pretty much to herself. She had a vegetable garden about her home. As she became older the garden became smaller. The children pretty much left her alone, but if any did bother her, she would speak to their parents and that would be the end of that. It was hard to tell if she was thin or full-bodied as she wore layered clothing much of the time.

Howard stated, "She took care of the less fortunate. She had nothing herself but always tried to help others to get on their own two feet.

(above) Virginia Albert's cottage once stood near end of playground.

Photo: 2022, Michael Naya Jr.

She often took in people, especially a young girl from down South, who wanted to come up North to better themselves. She would take people into her home and help them find work. Once they started to earn a living, they would have to be on their way so that she could eventually help someone else. She had no plumbing in the house. There was an outhouse and a well. I used to bring water in for her. I also used to chop wood for the small stove that she cooked on all year. It was the only source of heat in the house during the winter. As night approached, I used to go into her house and light her kerosene lamps for her. As she grew older and less able, her son John from Summit came down and checked her more often. Eventually, over her resistance and desire to remain independent, he took her to live with him.

Research reveals that she left Kenilworth about 1955 to live in Summit with her son. Some may

look upon her life style in Kenilworth as primitive. But in the decades before, that was how many people lived in early Kenilworth – just like Mrs. Alberts. She had no electricity, no plumbing, no running water, and no central heat. As did she, earlier residents used kerosene lamps, had outhouses, and drew water from wells or scooped it up from nearby streams. Mrs. Alberts lived to nearly 94 years of age, passing away April 11, 1972. She was certainly a woman of great kindness who led a humble life, dedicating herself to helping others. She was one of those beautiful people we find who have so little, but who do so much for others.

Research provided by Walter E. Boright, Ed. D. Persons with questions about this article or who have Kenilworth history to share, may contact Dr. Boright at 908-256-5200 or drbori@aol.com.

BREARLEY CELEBRATES BLACK HISTORY MONTH

Kenilworth Public Schools

The hallway at the entrance to David Brearley Middle High School (DBMHS) showcases iconic figures in Black history, but not the ones you might expect. Instead of civil rights heroes and politicians, the display focuses on creativity and features athletes, musicians and even a depiction of 100 years of Black hairstyles.

The school's Race Matters Alliance, working with DBMHS alumnus Jordan Stewart, intentionally focused on Black culture to mark Black History Month, explained principal Jeremy Davies.

"Black history and Black culture are incredibly important parts of American history. Our goal is to show our students that they are one in the same," Davies said. "This display has captured that, as well as shines a light on a variety of contributions made by Black Americans to our society."

The project was organized and guided by staff members including principal Jeremy Davies, Fine & Performing Arts and Technology teacher Dr. Janice Marsili, middle school counselor Megan Harrison and high school social studies teacher Tim Ryan, with special assistance from Dr. Marsili's husband, Mr. Marsili.

Along with messages echoing Black excellence throughout the building, Brearley hosted Montclair State University's Step Team, Gospel Choir, and a Dance Team sub-group called Complexions as part of its Black History Month celebration. The assembly was followed by a reception and panel discussion hosted by the

Race Matters Alliance and its advisors, Dr. Marsili and Mrs. Harrison, along with Stewart.

After the semester change on Feb. 4, seniors began the first ever Social Justice class at DBMHS. The elective explores literature involving social justice issues and current events. Since the class is new, students have been able to help mold the syllabus around their interests. They can choose from a variety of texts that tie into the subject.

"Students have expressed that being able to shape this class themselves, they are more engaged in reading than they have been in years past," said Davies. "It excites me to see them be able to dictate what our future generations will be exploring while genuinely being interested in the subject."

AUDITIONS FOR A BRONX TALE

CDC Theatre in Cranford

Auditions for A Bronx Tale will take place at CDC Theatre, 78 Winans Ave., Cranford, NJ on March 14, at 7 p.m. for young Calogero only; and March 15 and 16 at 7 p.m. for all other roles. Callbacks will be on Tuesday, March 22 at 6 p.m. by invitation only.

FUNDRAISER FOR CRANFORD FIREFIGHTER

Knights of Columbus of Garwood and Cranford

The Final Four Charity Fundraiser to support Cranford Firefighter Robert Hurewitz, whose career was cut short by physical injuries sustained on the job, will take place on Saturday, April 2 from 6:00 p.m. to 11 p.m. at the Columbian Club of Garwood at 37 South Ave., in Garwood. Tickets are \$35 per person and include beer, wine, soda, and food.

Hurewitz suffered heart and kidney damage in the line of duty last year. The effects have been

lasting and deleterious. Proceeds from the April 2 fundraiser will be donated to his family.

Please help this family of three by participating in the April 2 event or by donating directly to the GoFundMe campaign started by Hurewitz's wife Amanda: [GoFund.Me/e460a236](https://gofund.me/e460a236). You can also mail a donation check made payable to the Cranford Knights of Columbus, PO Box 501, Cranford NJ 0701 – write in the check note: For Hurewitz Family.

The poster is for the 'FINAL FOUR Charity Fundraiser' for Robert Hurewitz. It features a basketball hoop and ball on the left. RENNA MEDIA LAUNCHES THREE NEW NEWSPAPERS

Beginning in March three new towns have joined Renna Media's growing family of newspapers: Florham Park Press, Millburn Short Hills Monthly, and Elmora Hills Elizabeth. Renna Media is now mailing 160,000, town-specific newspapers, to 24 towns each month.

The newspapers' goal is to be a positive influence on the economic development and overall well-being of the town. Our publications exist to share community service news and the good things that are happening in the community.

Renna Media is a Cranford, NJ based business owned and operated by husband and wife team of Joe and Tina Renna. Renna Media's family of 24 community newspapers are published in Morris, Essex, Union and Somerset counties, with a total circulation of 160,000. The publications are "hyperlocal" in nature in that they contain information focused on each individual town, and are direct mailed within those towns.

The concept of being hyper-local is to give local businesses a venue to promote services. Reaching local customers gives you the highest return for your advertising dollars. The newspapers are designed (black ink on newsprint) to keep the cost of an advertisement to as low as \$60. Regional businesses can take advantage of one low rate for advertising in multiple towns.

Renna Media also prints full-color flyers that get mailed along with the newspapers. A cost effective alternative to mailing postcards.

For more information about Renna Media publications, please visit rennamedia.com.

You can contact Tina Renna regarding advertising, or to submit news, via email info@rennamedia.com; or call 908-418-5586.

(above) Joe and Tina Renna, owners of Renna Media, LLC, publish 24 direct-mailed community newspapers with a total circulation of 160,000. They have been publishing community newspapers since 1998. For more information, please visit rennamedia.com.
