## VIRTUAL PARENT EDUCATION SERIES

Kenilworth Public Schools will hold an informational series to promote responsible use of social media and give parents the tools they need to manage children's technology time.

Lauren Muriello, a licensed psychotherapist and educational speaker, will lead a 3-part series on Zoom, culminating in an open Q&A session.

"Modern technology adds challenges to the age-old job of parenting. We share parents' priority of making sure their children are safe online and want to offer practical expert advice," said Superintendent Kyle Arlington. "We have seen enough social media incidents among students to understand that more work must be done. By strengthening our partnership with parents, we can support smart and safe online behavior at home and in school."

All three programs in the Parenting Education

Series will begin at 7 p.m. on Zoom.

Tuesday, May 2: "The Impact of Screens & Social Media: Keeping Your Kids Healthy & Safe"

Tuesday, May 16: "Parenting Gen Z & Alpha: Raising Critical Thinkers with Healthy Minds"

Tuesday, June 6: Open Q&A session with Muriello. Parents will be invited to submit questions before and during the event.

While parents can join whichever sessions they choose, they will likely get the most benefit from attending all three. Muriello will encourage parents to implement strategies she shares in the first two programs and will offer follow-up tips in the final session.

Links will be shared closer to each event on the district's Facebook page (Kenilworth BOE) and through emails to parents.

Residents are reminded to keep an eye out for the invasive spotted lanternfly that has caused damage to residential and agricultural plants and trees throughout the area. Residents are asked to check trees, fences, and other flat surfaces around their homes and neighborhoods for egg masses, as well as grown lanternflies and Stomp Them Out!

The spotted lanternfly is native to China, India, and Vietnam. It was first sighted in the United States in Pennsylvania, and has since spread to surrounding states, including New Jersey. The spotted lanternfly was first discovered in Somerset County in 2019. While not harmful to humans or animals, this invasive insect feeds on the sap of many different hardwood trees, scrubs, ornamental plants, and has the potential to impact agricultural crops of economic importance such as grape vines, hops, and apple orchards. Feeding damage caused by the spotted lanternfly significantly stresses the affected plants which can lead to decreased health and potential crop loss.

Residents and visitors are advised to keep an eye out for spotted lanternflies and their egg masses and kill them on sight. Destroying spotted lanternfly egg masses before they hatch is the best way to limit their spread. Eggs can be laid on any flat hard surface including metal, wood, and plastic. Egg masses are commonly found on fence posts, telephone poles, lawn furniture, and the underside of tree branches. Egg laying begins

in September and continues through November or until the first freeze.

While adult spotted lanternflies do not survive the cold winters, their egg masses do. Beginning in May through June, the eggs will start to hatch and mature through their life stages into adulthood. Join the battle to beat the bug and help us Stomp Them Out!

#### IF YOU FIND SPOTTED LANTERNFLY EGG MASSES:

- Scrape egg masses using scraper cards, or anything else that is hard, tapered and/or flat
- Kill eggs by putting them into doubled bags, using alcohol/hand sanitizer, or by smashing

# JUNETEENTH CELEBRATION AND PROGRAM AT KENILWORTH'S HISTORIC NITSCHKE HOUSE TO FEATURE "A VISIT WITH SOJOURNER TRUTH"

As Portrayed by Acclaimed Historical Interpreter Dr. Daisy Nelson Century

On Sat., June 3, 2023, the Kenilworth Historical Society will present a colorful, enlightening program celebrating African American culture and the significance of the Juneteenth holiday, which annually commemorates the emancipation of enslaved African Americans. It will feature an inspiring interactive visit with renowned anti-slavery abolitionist and women's rights activist Sojourner Truth (c. 1797-1883), as portrayed by acclaimed actress and historical interpreter Dr. Daisy Nelson Century.

The planned Juneteenth program and celebration will take place at the historic Oswald J. Nitschke House (49 South 21 Street, Kenilworth), starting at 1 p.m. Traditional Juneteenth refreshments will be served. Admission is \$10 for adults and \$5 for children. Advance registration is requested, as seating is limited. The Nitschke House has an elevator and is fully accessible. For information and

reservations, please call 908-709-0434.

Participants in the program, which has universal value for all cultures and age groups, will have the opportunity to learn about Sojourner Truth (born Isabella Baumfree) as well as the historical significance of the Juneteenth holiday, which annually on June 19 commemorates the emancipation of enslaved African Americans. Sojourner Truth was born into slavery in Swartekill, N.Y., but escaped to freedom with her infant daughter in 1826. After going to court to recover her son in 1828, she became the first Black woman to win such a case against a white man. She continued to fight on behalf of women and African Americans until her death.

The June 3 program at the Nitschke House is being made possible in part by a 2023 HEART (History, Education, Arts Reaching Thousands) Grant from the Union County Board of County Commissioners. The Kenilworth Education Association F.A.S.T. Committee is generously contributing food for the event.

Proceeds will benefit the Kenilworth Historical Society's Oswald J. Nitschke House (c. 1880) "living history" museum and cultural arts center by helping defray operating and programming costs.

Dr. Daisy Nelson Century is a Philadelphia-based educator, actress, historical interpreter, motivational speaker, author and radio talk show host. She holds B.S., M.Ed. and Ed.D. degrees and has taught for more than 20 years in the Philadelphia School System as an award-winning science teacher. Her acting career has included lead roles in several independent movies, and an affinity for history led to her successful profession as a historical interpreter who travels throughout the United States effectively portraying such historical figures as Sojourner Truth, Harriet Tubman, Mary Fields, Phyllis Wheatley, Hatshepsut, Madame CJ Walker and Bessie Coleman. As an author, she has penned four books: Belle, Ms. Emmaline's Little Book of Wit and Wisdom, Zach and His Lucky Zebra Socks and Deedle, Deedle Your House is on Fire! , a professional actress, historical interpreter, author, educator and motivational speaker whose programs have inspired and delighted audiences throughout the United States.

The Kenilworth Historical Society ([www.kenilworthhistoricalsociety.org](http://www.kenilworthhistoricalsociety.org)) is an independent, non-profit, tax-exempt, 501(c) (3) organization dedicated to the research, preservation and interpretation of the Oswald J. Nitschke House, local history and culture.

On Memorial Day, May 29, 2023, many will picnic, attend holiday sales, rush to the beach, or visit friends. Let's remember them, especially those 19 from Kenilworth who perished.

# RELIEF FROM CHRONIC KNEE PAIN

## FDA Approved Treatment to Avoid Surgery

### DON'T BLAME THE ARROW FOR MISSING THE TARGET

Just like tens of millions of other Americans, you were looking for relief from your chronic knee pain. You thought Viscosupplementation injections might be the answer, but the results were disappointing and painful. Don't assume the treatment wasn't right. That could very well be like blaming the arrow for its path to the target when the problem might be the archer. If you didn't get the pain relief you were hoping for, chances are your injection treatment was off target. Unlike blind injections or even ultrasound targeted treatments found elsewhere, **Northeast Spine & Wellness Center** uses diagnostic fluoroscopy to make sure the area that needs treated is the exact area where the injection goes. This is the most advanced method of delivering this pain relieving treatment with 95% accuracy to give you the results you're looking for. The use of Fluoroscopy guided injections sets **Northeast Spine & Wellness Center** apart. The end result is you living pain free from your chronic knee pain. You can avoid the lengthy and painful road of knee replacement surgery. You can avoid the endless trial and error assortment of potentially addictive prescription medications. This treatment, using fluoroscopy guided injections has seen a success rate of above 85% in those suffering from knee pain related to osteoarthritis, and that includes people with bone on bone involvement. You've suffered from chronic knee pain long enough. Call **Northeast Spine & Wellness Center** now for a RISK FREE consultation.

### If Knee Surgery Sounds Scary, It Should

Have you have been told you are facing knee replacement surgery? Have you been told about all the downsides you could be facing? First and foremost, there are NO guarantees that knee replacement surgery will be the answer to your pain, but let's look further:

- Surgery is costly, regardless of the percentage of services covered by insurance.
- Surgery requires lost time from work and typically requires a regimen of rehabilitation and medications.
- With surgery, there is always a risk for unwelcomed complications. And you could be back to where you started, or worse.
- Medications will be required for relief from surgery and you have been down that road before. Addictions to these pain medications can cause potential side effects, something you do not want to experience.
- Rehabilitation can take years.

### Consider This Alternative To Surgery

**Northeast Spine & Wellness Center** offers you a real opportunity and a painless way to say goodbye to your knee pain without any surgery. Here are just a few of the important benefits you should consider?

- Diagnostic fluoroscopy accurately targets the pain, unlike blind injections.
- Guided fluoroscopic injections are virtually pain free, unlike blind injections.
- No lost time from work or family.
- No expensive or time consuming rehabilitation.
- No potentially addictive prescription medications.
- Recovery time is almost instant, not months or years.

### How Does This New Treatment Work?

Relief begins almost as fast as it takes to pronounce the treatment. It's called Viscosupplementation Therapy. To begin with, it starts with **Northeast Spine & Wellness Center** investing in the use of diagnostic fluoroscopy. This enables them to target the exact location of your knee pain with pinpoint accuracy. What follows is a simple injection that causes little to no pain, especially when compared to what you may be living with daily. That explains what you will see on the surface of this revolutionary treatment. What's taking place below the surface is how and where the natural healing process takes place. The injection of a Hyaluronic acid called Hyalgan. This gel-like substance was approved by the FDA in 1996. Hyalgan is a natural substance that mimics the synovial fluid that is already produced by your body in your joints. Osteoarthritis sufferers in particular see a reduction in this much needed synovial fluid in their knee joints. Without that cushioning layer of protection, the cartilage in your knee can begin to wear away leading to the rubbing of bone on bone. Through Viscosupplementation Therapy, this natural substance immediately goes to work reducing the swelling and inflammation in the joint and adding a coating layer of protection. Think about Dorothy taking the oil can to The Tin Man. You'll begin to feel that same kind of relief and quite possibly feel like you're ready for a dance down the yellow brick road to recovery yourself. And with a success rate of over 85% in alleviating pain associated with osteoarthritis, it's easy to see why this treatment is so readily covered by Medicare and by most major insurance providers. Diagnostic fluoroscopy to target the pain. Viscosupplementation Therapy to relieve the pain. Simple, fast and no surgery!

### Do you Suffer from any of these Symptoms?

There are a number of reasons why you developed Osteoarthritis pain. It can develop with age or because of heredity. It could be from repetitive stress from a job or some glory days in athletics. Of course your concern is with the symptoms you face daily and how to make them end, hopefully without surgery or the use of potentially addictive medications. **Northeast Spine & Wellness Center** understands the symptoms you have been living with and can help. If you have any of the symptoms below, please call us today. Relief is a phone call away.

- **Pain** - Whether it's a sharp aching or maybe a burning sensation, the pain can range from irritating to debilitating.
- **Swelling** - This can cause tenderness and soreness to the entire knee area, making walking or going up and down stairs painful, getting in and out of bed or bathtubs difficult and dangerous just name a few activities affected by swelling.
- **Stiffness** - Getting up out of bed or after sitting for a period of time gets more and more difficult. This loss of mobility can be more than a hindrance. It can be dangerous if you need to move quickly.
- **Loss of muscle strength** - This can lead to balance issues and the strong possibility of falling.
- **Joint deformity** - Not just unsightly, but painful as well.
- **Creaking Joints** - Can be painful and a sign of more discomfort to come.
- **Sleepless nights** - Losing sleep over your suffering is not just irritating, but potentially dangerous because of so many other health concerns that can be affected by loss of sound sleep.

### Let Me Show You Targeted Relief From Your Knee Pain

Every day, I see patients suffering from knee pain due to arthritis, osteoarthritis, sports injuries or other conditions. Many have been told that they are in need of knee replacement surgery. Other patients say they have been prescribed various prescription medications to deal with the pain.

Something else I see almost every day, are patients that have tried viscosupplementation knee injections elsewhere and found it to be a painful and ineffective experience because the injections were not administered using fluoroscopic guidance. Instead of using the incredibly accurate diagnostic fluoroscopy we use at **Northeast Spine & Wellness Center** these patients experienced a blind injection technique, which can be as inaccurate as playing pin the tail on the donkey.

Once I am able to explain to my patients about the pin point accuracy of using diagnostic fluoroscopy and the amazing results viscosupplementation can provide, they are thrilled to get started. They are even more thrilled when they feel the relief. Please contact **Northeast Spine & Wellness Center** today to schedule your RISK FREE consultation. Call 732-827-0800

## IN THE HEIGHTS AT CDC THEATER MAY 5-20

Before Hamilton was In The Heights and it's coming to CDC Theatre in Cranford.

The final production of CDC Theatre's 104th season, In the Heights, is set to run weekends from May 5 to May 20. Lin Manuel Miranda's first Broadway show burst onto the stage in 2008. The show was nominated for thirteen Tony Awards, including Best Musical, Book and Score, as well as for Direction and Choreography. Of those thirteen nominations, it won four awards, including Best Musical, Original Score, Choreography and Orchestration.

The musical tells the story of three days in the vibrant community in Manhattan's Washington Heights – a place where the coffee from the corner bodega is light and sweet, the windows are always open, and the breeze carries the rhythm of three generations of music. It's a community on the brink of change, full of hopes, dreams and pressures; where the biggest struggles can be

deciding which traditions you take with you, and which ones you leave behind.

"We are excited to at last be able to produce this show. Circumstances and pandemic restrictions caused it to have been postponed, but we were committed to having the chance to present it," said Joe Leo, the show Producer. "Once we were able to add it to this season, we had one of the biggest audition turnouts ever at the theatre and have assembled a wonderful cast from throughout the state!"

The music of In The Heights takes its cues from the diverse Latin community it represents, infusing hip-hop, salsa, merengue and soul music into the score with lyrics about life, love, community and the American dream. There are eight shows, including two matinees. For best ticket prices and selections visit [cdctheatre.org](http://cdctheatre.org).

# LOCAL CHESS COMMUNITY MORN THE LOSS OF JOHN MOLDOVAN

Obituary submitted by David Lazarus

On Monday April 10 the chess community lost long time Chess Director at Westfield, John Moldovan at the way too young age of 62.

John was more than a talented Chess Director who showed much originality in figuring out different ways to keep the tournaments. Interesting. He developed an interesting concept called the OCTO where eight players would play. John presided over the huge growth and success of Westfield and was Houdini at figuring out pairings that would accommodate everybody.

John was very accommodating, and sometimes even too accommodating because a lot of times people would come late and they would keep coming, and our start times would always be pushed back, which annoyed John to no end. We made it through many successful Sundays together until abruptly we were shut down on March 8, 2020 by the pandemic and did not reopen till March 2022.

By that time Westfield was a much different place and unfortunately John was a lot less healthy, battling follicular cancer. He made a very brave and impassioned recovery and seem on his way to better health when the second of a terrible one two punch hit him with a brain tumor, which was inoperable. John was not at Westfield much in 2023, fighting his battle, which, unfortunately he lost last night. I will miss the man for many reasons. He was a very good chess player, and very innovative, and a very tough competitor

over the board.

He was also a long time president of the Kenilworth Chess and he also managed the website.

He WAS Kenilworth after founder Mike Wojcio and John will be greatly missed by anybody who knew him.

John was also a very accomplished chess player who was renowned for his opening knowledge, especially of the French, Dutch and Nimzo Indian. He was an extremely strong correspondence player.

Over the board, John leaves us with an 1884 rating and a first place and undefeated performance in his final tournament.

Meeting every Thursday night starting at 8:00 pm  
KENILWORTH COMMUNITY CENTER AND RECREATION BUILDING  
575 Boulevard in Kenilworth, NJ at corner of 24th Street  
Visitors are always welcome, beginner to master. Membership is not required to play.
