SAY GOODBYE TO KNEE & JOINT PAIN WITHOUT RADIATION

Introducing RADIATION FREE KNEE INJECTIONS Under Ultrasound Guidance

Do You Experience:

- Joint pain or tenderness?
- Joint stiffness after a period of inactivity or when you first wake up?
- Loss of flexibility?
- Grating sensation when you move?

Why Do You Need It?

- You have knee pain that's so bad it interferes with everyday life.
- You have tried nonsurgical treatments for several weeks or months and your symptoms have not improved.

Benefits of Viscosupplementation

- No pain from the injection
- No recovery time
- Quick results
- No radiation

If you answered "yes" to any of these questions, there's good news: NORTHEAST SPINE AND SPORTS MEDICINE can offer the relief you need to save a life free of knee pain.

Ask us about Viscosupplementation

Viscosupplementation is a non-invasive, FDA-approved treatment proven effective for Osteoarthritis and other types of pain.

Viscosupplementation is a procedure in which a gel-like fluid called hyaluronic acid is injected into the knee joint. Hyaluronic acid is a naturally occurring substance found in joint fluid, acting as a lubricant to enable smooth bone movement and absorb shock when needed; Because people with osteoarthritis have a lower than normal concentration of hyaluronic acid in their joints, viscosupplementation is an excellent therapeutic option for these individuals.

Viscosupplementation is a high-tech answer for all those who think that surgery, dietary supplements, and prescription medication are the only options for eliminating knee pain. In fact, this new treatment enables most people to get back to enjoying everyday activities in a matter of weeks. Treatment is covered by most major health insurance plans, including Medicare.

STUDENTS ENGAGE WITH MAYOR ON CIVIC INVOLVEMENT

Students in the “Community Engagement” class at Kean University had the unique opportunity to hear from Mayor Derek Armstead of Linden who shared his insights on civic involvement and leadership during an event held in September.

Mayor Armstead visited the class to discuss how students can actively participate in their communities, drawing on his own journey from city councilman to mayor. During the session, Mayor Armstead inspired the students by speaking about the importance of courage in addressing community concerns, the willpower to stand up against the status quo, and the vision required to lead beyond personal interests. His

personal experiences in public service provided students with real-world perspectives on how they, too, can become more involved in the democratic process.

“As the professor of this class, I am always delighted when I can invite a political figure who truly captures the attention of my students,” said Professor Leonard Grayson. “Mayor Armstead’s talk resonated deeply, offering both practical advice and inspiration. It was a privilege to have him speak to us, and his contribution is much appreciated.” Mayor Armstead’s visit highlights Kean University’s ongoing commitment to fostering community involvement and civic responsibility among its students.

SHOP LOCAL FARMERS' MARKETS FOR THE HOLIDAYS

The New Jersey Council of Farmers and Communities (NJFCF) is excited to highlight the abundant offerings of local farmers' markets, where residents can access the freshest produce the Garden State has to offer.

By visiting jerseyfarmersmarket.com, consumers can easily locate farmers' markets in their area and explore a wide array of locally-grown fruits and vegetables, along with delicious recipes that enhance the farm-to-table experience. Look for the unmistakable Jersey Fresh sign, it insures the purchase of authentic New Jersey produce.

New Jersey boasts over 715,000 acres of dedicated farmland and is renowned for its diverse specialty crops, producing an impressive 1.2 billion pounds of tomatoes, 74 million pounds of blueberries, and 400 million pounds of sweet corn annually. With its unique climate and fertile soil, New Jersey's farmers are devoted to sustainable practices that not only elevate the flavor and quality of their crops but also support environmental stewardship. Specialty crops from New Jersey play a crucial role in both local consumption and national markets, significantly bolstering the state's economy.

The NJCFC supports numerous farmers' markets across the state, fostering community engagement and promoting sustainable living. "New Jersey's agricultural industry is thriving, and our specialty crops are among the best in the nation," said Joseph Mikulewicz, President of NJCFC. "By choosing local produce, consumers invest in their health while supporting our

dedicated farmers and strengthening their communities."

Buying local produce provides numerous advantages: it minimizes carbon footprints thanks to shorter transportation distances, stimulates local economies, and guarantees access to fresher, nutrient-rich food. Research shows that locally grown fruits and vegetables often have higher nutrient levels compared to those transported over long distances.

Farmers' markets, along with local restaurants and grocery stores throughout New Jersey, proudly feature locally sourced produce that encourages healthier eating habits while nurturing a sense of community connection. The state remains committed to upholding its leadership in specialty crop production through initiatives centered on education, sustainability, and making fresh food accessible to all residents.

HONEST, RELIABLE, QUALTY SERVICE

BIG NEWS: RENNA MEDIA IS LAUNCHING SIX MORE NEWSPAPERS IN DECEMBER

Renna Media will be launching six new newspapers in December 2024. The new towns joining Renna Media's family of newspapers are Livingston, Roseland, Hanover, East Hanover, Morristown, and Morris Township. The newspapers are Every Door Direct Mailing (EDDM) to every home and business in town.

The new monthly publications will add over 40,000 new postal patrons for a new total of over 200,000 newspapers mailed to 30 towns in Union, Somerset and Morris Counties.

The publications are "hyperlocal" in nature in that they contain information focused on each individual town and are direct mailed within those towns. The newspaper's goal is to have a positive influence on the economic development and overall well-being of the town. Our publications exist to share community service news and the good things that are happening in the community.

The concept of being hyper-local is to give local businesses a venue to promote services. Reaching local customers gives you the highest return for your advertising dollars. The black and white newspapers are designed to keep the cost of an advertisement to a minimum. Ads in one town start at \$100. Regional businesses can take advantage of discounted rates for advertising in multiple towns.

Renna Media also prints full-color flyers and tri-fold menus that get mailed along with the newspapers. A cost effective alternative to mailing postcards.

Renna Media is a Cranford, NJ based business

owned and operated by husband-and-wife team of Joe and Tina Renna. They are celebrating 40 years in business.

For more information about Renna Media publications, please visit RennaMedia.com.

Press releases with community service news can be emailed to editor@rennamedia.com.

Businesses interested in advertising can call Joe Renna at 908-447-1295,

or email joerenna@rennamedia.com.
